# DeFi Challenges Across the Ecosystem

## For Users

Complex workflows, fragmented tools, and steep learning curves.

## For Developers

Lack of reusable AI frameworks for building efficient systems.

## For Businesses

Need for scalable and customizable solutions to streamline operations.

Simplify access for MultiversX DeFi users.

Open Source, Multi Agent Framework

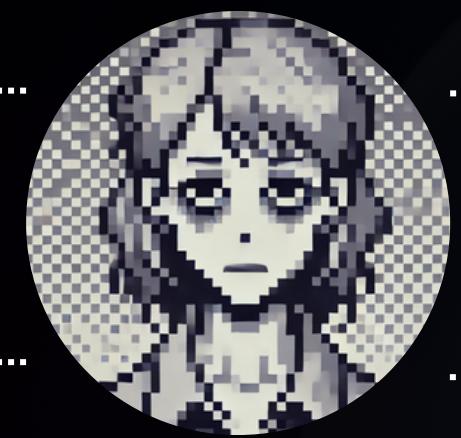

SaaS solutions, custom deployments.

# Why HiveX Stands Out

	Traditional DeFi	HiveX
Flexibility	Operates within a specific area of expertise.	Covers a broader scope with several specialized agents.
Scalability	Not easily scalable.	Reconfigurable and expandable as needed.
Performance	Suitable for simple, independent tasks.	Suitable for complex, ongoing tasks requiring coordination.

# Power of Multi-Agent Systems

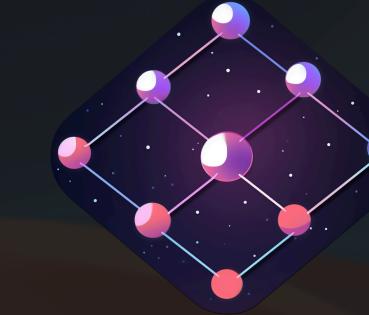

## Efficiency Gains

Reduces processing time by **60%** in complex workflows, by enabling parallel task execution.

## Scalability

MAS systems handle **3x** the workload of single-agent systems by distributing tasks across agents.

## Specialization

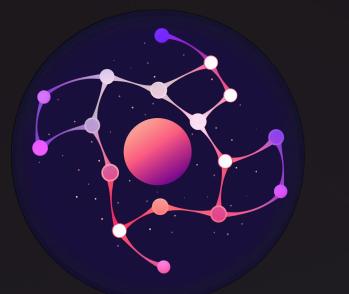

Each agent focuses on a specific function, improving performance and accuracy by up to **40%**.

## Robustness

MAS maintains **95%** system functionality even if individual agents fail.

## Adaptability

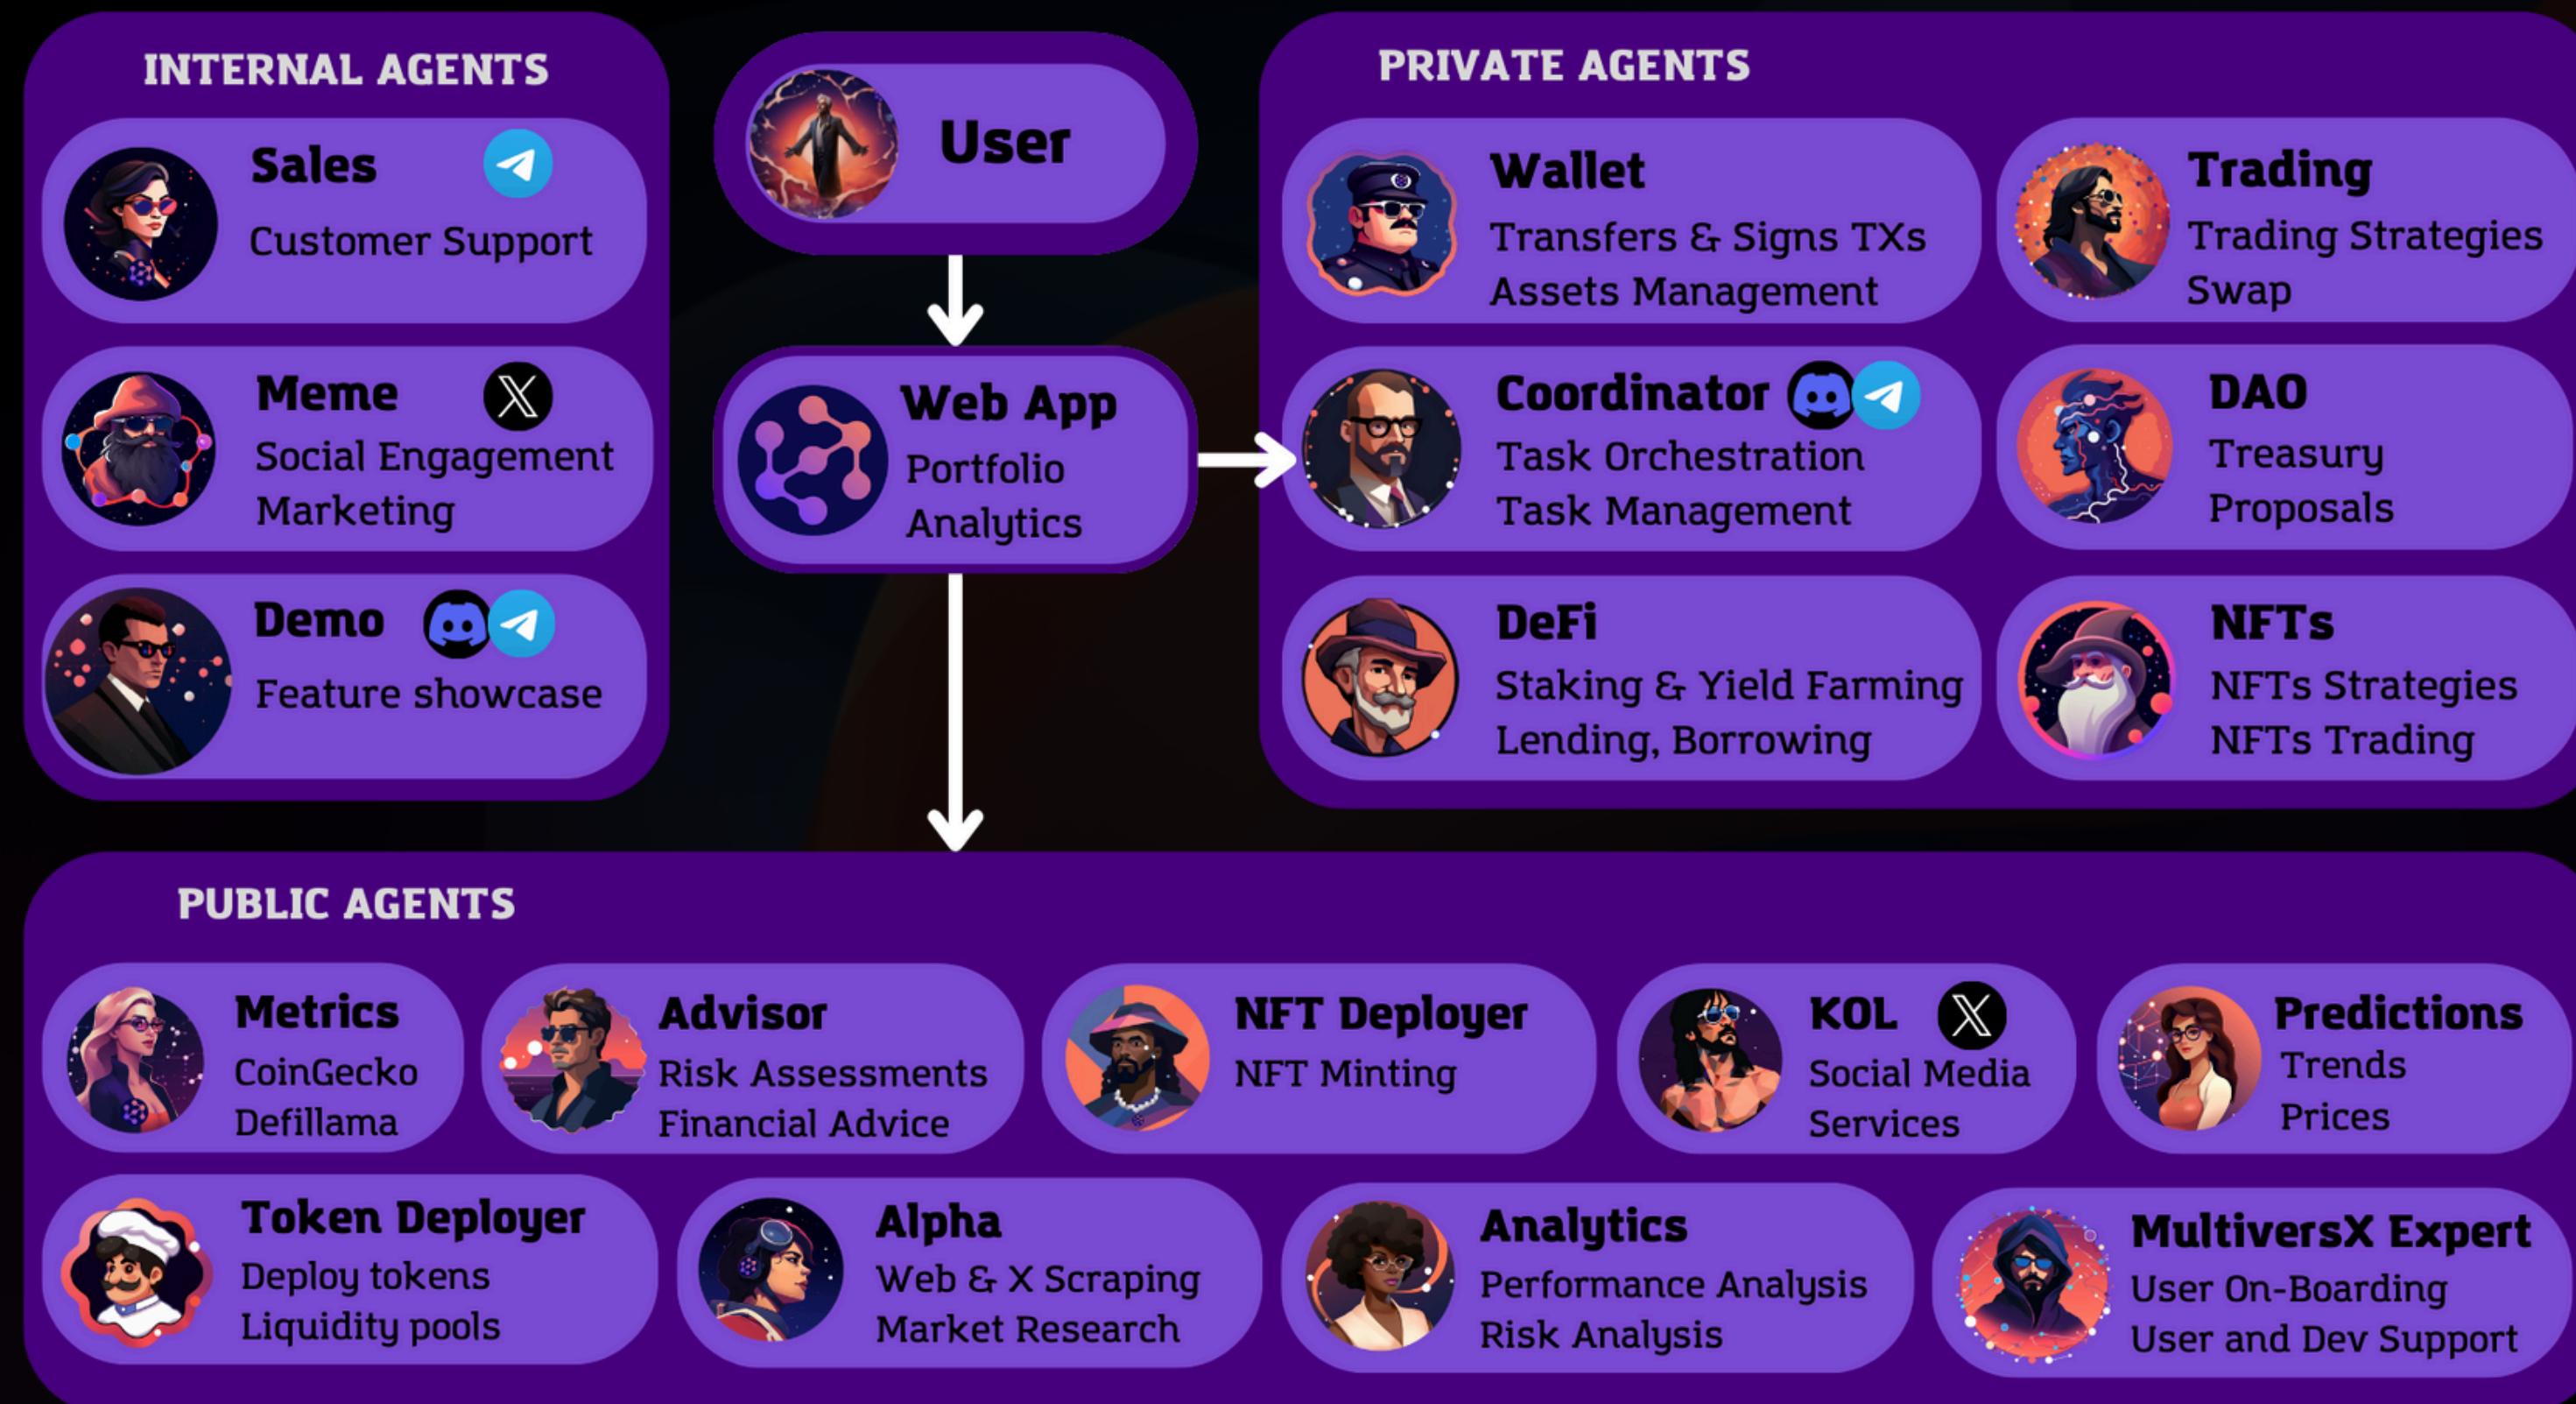

MAS systems integrate with new protocols and APIs **30%** faster than monolithic architectures.

## Modularity

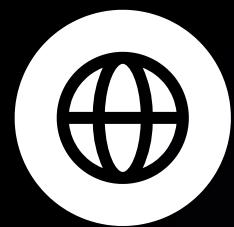

Plug-and-play architecture allows easy addition of new agents and capabilities.

# How HiveX Works

n1c0 /start  
Hello n1c0\_dev! Welcome to HiveX. I'm here to guide you through our platform's exciting features. Whether you're interested in managing your MultiversX wallet, exploring DeFi protocols like Hatom, or customizing the platform to suit your needs, I'm here to help. What would you like to explore first? 11:00 AM  
Swap 0.001 EGLD for USDC on AshSwap 11:36 AM ✓  
n1c0 Swap 0.001 EGLD for USDC on AshSwap  
Great choice, n1c0\_dev! Let's swap 0.001 EGLD for USDC on AshSwap. I'll handle the transaction with a 1% slippage to ensure the best rate for you. Once completed, you'll be able to view the transaction details on the MultiversX explorer. Let's get started! 11:36 AM  
n1c0 Swap 0.001 EGLD for USDC on AshSwap  
Successfully initiated swap of 0.001 EGLD to USDC with 1% slippage on AshSwap.

What's the tvl of Hatom? @HiveX Demo Agent  
HiveX Demo Agent APP Today at 11:41  
Let's find out the total value locked (TVL) for the Hatom protocol on MultiversX. I'll gather the latest information for you now.  
I'll look up information about hatom on MultiversX. One moment while I gather that data...  
Here's what I found about **Hatom Lending** on MultiversX:  

- **Total Value Locked (TVL):** \$57,051,369
- **Category:** Lending
- **Token Symbol:** HTM

Website: <https://app.hatom.com/lend>
